ONLINE LEARNING FOR SELF ISOLATION

Classwork for all students self-isolating will be uploaded on to Microsoft Teams. Students must follow their usual timetable, find the work for each lesson and complete the tasks set.

All self-isolation work will be uploaded into the **Year Group teams** not the individual class teams. Each Year Group team will have folders for each subject and that's where students will find their work.

Instructions:

Find the students Year Group. Go to files. Click on Class Materials and here you will find all subjects. Within each folder you will find work for each subject.

Please do not use the 'conversation' function on Teams as the whole of the year group can see this and teachers are unable to respond as they are teaching their usual timetable.

If any student is unable to access the work or if any student is struggling with the work set, please let us know and we will support you in the best way we can. You can contact us on 01925 853500 and ask for Kelly Forster or speak to one of our Polaris Team. Alternatively, you can email us on:
